## ADVANCED IMPLANT MOTOR SYSTEM

**KOREAN  
TECHNOLOGY**

Seamless Effortless Vibrationless

### ► Specifications :-

Speed(rpm)	200-40,000
Torque(N.cm)	5-60
Max.pump output(ml/min)	130
Program	6
One-button calibration	Yes
Light	White LED
Luminance(lux)	Over 32,000
Power supply	220-240V & 100-120V, 50/60Hz
Technology	Korean Technology
Assembled in	India

- Torque up to 60N.cm
- Adaptable to transmission ratio contra angle
- 1:4.2, 1:5, 1:1, 20:1

# 20:1 IMPLANT HANDPIECE

# LED

With Fiber Optic LED

32000 LUX  
White LED

## 1. Head :-

- External Water Spray  
Bur: CA(\$2.35)

## 2. Connect :- E-Type Coupler with optical fiber

### Description :-

- ✓ Weight balance between contra angle and motor provides perfect positioning and better comfort.
- ✓ Reduces hand fatigue during complex surgery.
- ✓ LED ensures high visibility for high accuracy and efficiency.
- ✓ Max Speed : 2,000 min-1
- ✓ ISO standard type, easy to disassemble.

## Clear vision

## Smooth Workflow

# 20:1 IMPLANT HANDPIECE

## 1. Head :-

- External Water Spray Bur: CA(\$2.35)

## 2. Connect :- E-Type Coupler

### Description :-

- ✓ Weight balance between contra angle and motor provides perfect positioning and better comfort.
- ✓ Reduces hand fatigue during complex surgery.
- ✓ Max Speed : 2,000 min<sup>-1</sup>
- ✓ ISO standard type, easy to disassemble.

# MULTI-FUNCTIONAL FOOT PEDAL

Aseptic Operation  
Maximum Freedom of the Handle

- 1) Water Volume Control
- 2) Program Control
- 3) Forward / Reverse
- 4) Speed Control

 **Touchless  
control**

# Smooth Irrigation

- » No vibration, smooth flow
- » No noise
- » Compatible with disposable tube to ensure safety from infection
- » Easy to connect

# Super Strong Metal attachments

Made by World's strongest  
Stainless steel - 17-4 PH (Grade 630)

Manufactured by POSCO  
(South Korea)

# What we have made?

**World's smoothest** Implant motor  
with best **south korean technology.**

Because Implant surgery  
should not just be a work.

It should be a smooth

*satisfying experience.*
